

Pittcon Announces Topics for Conferee Networking Sessions

The Pittsburgh Conference

Pittsburgh, PA —The Pittcon Organizing Committee has recently announced the topics for Conferee Networking during Pittcon 2014, which will be in Chicago, Illinois, McCormick Place, March 2 to 6, 2014. Conferee Networking sessions are free to all registered attendees and provide an informal venue for a small group of participants to openly discuss topics of mutual interest or solve problems specific to certain instrumentation or procedures.

This year, there are 31 facilitated sessions during Conference week covering topics in life science, chromatography, environmental science, fuel, analytical methods, lab procedures, quality control and more. These unique networking opportunities begin on Sunday and run through Wednesday afternoon and are open to all registered conferees at no extra cost. The informal two-hour sessions bring attendees with similar interests together to discuss, resolve problems and brainstorm new concepts.

Below is a sample of several topics:

- Non-invasive biomedical analysis: Detection of Bacterial Infections by Volatile -Fingerprints ICP-MS and Chromatography for Metals Speciation
- Does Your Enterprise Resource Planning (ERP) Replace LIMS?
- Regulatory Meets Finance

Conferee Networking Chairman Jane Chan commented, "These sessions are an excellent resource for collaboration. We continually get feedback from our Conferee

About Pittcon

Pittcon is a registered trademark of The Pittsburgh Conference on Analytical Chemistry and Applied Spectroscopy, a Pennsylvania non-profit organization. Co-sponsored by the Spectroscopy Society of Pittsburgh and the Society for Analytical Chemists of Pittsburgh, Pittcon is an annual conference and exposition on laboratory science. Proceeds from Pittcon fund science education and outreach at all levels, kindergarten through adult. Pittcon donates more than a million dollars a year to provide financial and administrative support for various science outreach activities including science equipment grants, research grants, scholarships and internships for students, awards to teachers and professors, and grants to public science centers, libraries and museums.
