

SC14 Workshop Submissions Now Open, Deadline February 7th

SC14

Are you interested in hosting a workshop at SC14? The conference is accepting proposals until February 7 for independently planned full-, half-, or multi-day workshops.

Workshops complement the overall SC technical program. The goal is to expand the knowledge base of practitioners and researchers in a particular subject area, providing a focused, in-depth venue for presentations, discussion and interaction.

Workshop proposals will be peer-reviewed academically with a focus on submissions that will inspire deep and interactive dialogue in topics of interest to the HPC community.

For more information, please consult:
